Learning Circle

NEWSLETTER

ISSUE NO. 3

ABOUT

The Learning Circle project supports entrepreneurs and promotes the circular economy entrepreneurship. Sustainability has become increasingly important in all areas of society and the economic sector is no exception. It is therefore essential to promote the development of the circular economy.

IN-SERVICE TRAINING PROGRAMME

The Learning Circle in-service training programme has been developed keeping in mind the training needs of VET tutors. It is divided in two parts, with Part A focusing on the development of competences regarding circular economy, and Part B focusing on pedagogical and technical/digital skills. Two training events for tutors were organised during the implementation on the project with much success. However, all the materials will still be available in the project's platform for all of those who weren't able to take part in the events.

LTTA IN BERLIN

The part B of the In-service training was implemented for the first time in Berlin, from the 2nd to the 4th of November. education professionals from all partner countries have spent these days working on their pedagogic and technical skills and developing their own EduZine together.

LEARNING CIRCLE

EDUZINES AND INTERACTIVE INFOGRAPHICS

► FOR CIRCULAR ECONOMY BUSINESS MODELS

The Learning Circle partnership has developed 10 EduZines aiming to support innovation entrepreneurs in the development of their knowledge and skills about the circular economy and in order to facilitate their transition into sustainable and circular business models.

► FOR INNOVATIVE CIRCULAR ECONOMY

The EduZines for Innovative Circular Economy focus on the development of essential skills for entrepreneurs of the circular economy, such as creative thinking, problem solving, leadership, agile management, strategic planning, among others. The Eduzines were developed to be accessed in any smart device, which means that they can also be easily used with a smartphone. The EduZines will soon be available in all partners languages on the project's platform.

MOOC AND COMMUNITY OF PRACTICE

The Learning Circle partnership has developed an online learning platform dedicated to the project. Here all the materials created withing the project are being uploaded and will be freely accessible. We have also created a community of practice for those interested in colaborating with entrepreneurs and VET tutors from other countries.

As the project is reaching its final months, we will soon have exciting news, so remember to follow our pages to receive updates on the latest progress.
