THE LEARNING CIRCLE PROJECT COMES TO AN END

After two years of hard but fulfilling work, the Learning Circle project is now reaching the end.

The main goal of this Erasmus+ project was to support the emergence of innovative circular economy entrepreneurs. The circular economy represents a means of promoting the development of the economy and innovative solutions, and since it's based on reduction, reuse, and recycling models, it represents an opportunity to make businesses more sustainable and green.

EVENTS

During the project, we have organised different events where we presented the project and its results. We held two training events for VET tutors, two final dissemination events, and piloting events in each partner country to test the quality of the materials developed.

1st training event
Cyprus, May 22

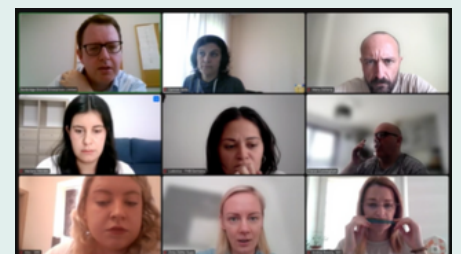

2nd training event
Germany, November 22

THANK YOU!

We want to finish by thanking everyone who has supported us and taken part in the project during the past two years. Your contributions and participation were very valuable and appreciated.

We hope everyone continues to benefit from the results we produced which we have created with great enthusiasm!

- The Learning Circle Team

THE PARTNERSHIP

The Learning Circle project was developed by a consortium of 8 organisations. Together, we fought to make businesses in Europe more circular and sustainable.
